

Carnival Cruise Lines

Helsinki Shipyard (STX) made luxury cruisers

Monitoring and Reporting system for cruisers (like “Paradise” and “Elation”). HVAC, water and waste management of the vessels.

One monitoring and reporting platform allows fast project making and easy maintenance.

Solution:

- WONDERWARE automation software. Network concept with 12 workstations.

Customer benefits:

- Wonderware software integrates together different automation devices of various suppliers into one monitoring and reporting platform.
- Easy implementation, just one platform for all automation and control systems.
- Klinkmann consulting and training to secure the best implementation.
